- Computer is revolutionary scientific inventions. It has been such a useful and important invention that it has gained a place of importance right after the discovery of wheel and fire. It has drastically changed business, technology, transport, communication, education, economy, crime, society, entertainment and everything one can imagine. Computer is of great use to us. It is used in the measuring daily routine work, trade and commerce, diagnosing diseases, entertainment, games and sports, transport, educational sector, researching space and what not. It has done great wonders in inventing email, internet and robot. Besides, its utility in controlling population, preparing budget, and analysing natural calamity is very great. However, but computer is not of unmixed blessing. For its wide use unemployment problem is getting sever. It also causes various diseases to the users. Its ray is very harmful to them. By using computer, the users may lose eye sight. Nevertheless, present lives cannot be led without computer. Truly speaking, modern civilization is dependent on computer to a great extent. If utilized properly, it is surely an asset to the development of a nation.
- Que-5 (A) Edit the following passage: (07)
- Punctuality is the habit of doing things at the right time. It is a very important habit. A man who does everything in time succeeds in life but he does not do so often fails. A punctual man is able to do more work than a man who lacks the habit of punctuality. He gets praise from all quarters. For service personnel the habit of punctuality is all the more important. We must do all our work in time. We must not be late. This will bring us happiness and success. Lives of great men tell us how punctuality helped them in achieving success. We should all cultivate this habit.
- Que-5 (B) Essay: (Any One) (07)
- 1) Team work.
 - 2) Books: Our Best Friends.
