GLOBAL CLUES BOOSTED SENSEX UP 136 POINTS

Agencies
Mumbai, 02 October

The Bombay Stock Exchange's benchmark Sensex and the broadbased S & P CNX Nifty today scaled new heights as the stock market extended gains for the second straight day on the back of strong global clues, setting aside worries over rising inflation.

Driven higher by sector specific activity, the bellwether Sensex touched a new intra-day high of 14,462.77. it later ended the day at an all-time high of 14,403.77, up 136.59 points or 0.96 per cent over yesterday's close of 14,267.18.

Similarly, the National Stock Exhange's (NSE) Nifty scaled a new trading peak of 4,198.70 and closed at a record high of 4,183.50, recording a rise of 46.30 points or 1.12 per cent over the last close of 4,137.20.

The market sentiment was enlivened by good buying support from operators and fresh buying by FIIs in Reliance Communications, HDFC, Wipro, Satyam Computer, ACC, GACL and Grasim, brokers said.

Despite concerns overstretched valuations and high inflation pressure, investors seemed to be encouraged by record net profits earned by a majority of corporates in the third quarter of this fiscal. Major companies have mostly reported robust growth in December quarter earnings, and the central bank raised its 2006/07 economic growth forecast this week to 8.5-9.0 per cent from 8 per cent.

"The market is clearly being driven by fundamental developments and easy global liquidity – profit growth has been fantastic", said Jigar Shah, director at KR Choksey Shares and Securities. "It looks like the momentum will continue."
