Que.5(B) Make a precis of the following paragraph, and give a suitable title. (07)

“Diet plays an important role in the prevention of many chronic diseases. Eating a balanced diet rich in fruits, vegetables, whole grains, and lean protein can help reduce the risk of conditions such as heart disease, diabetes, and certain cancers. On the other hand, a diet high in processed and unhealthy foods can increase the risk of these diseases. It is important to be aware of the types of food we eat and try to include nutrient-dense options in our diet.”
