- OR
- Que.4 Draft a press release about appointing a new CEO of a company. (14)
- Write a précis of the following passage in about one-third and give it a title.
- From the moment we are born, we can not live alone; we stand in continual need of assistance of all around us, for body and soul and spirit; we need clothes which other men make; houses, which other men build, food, which other men produce; we have to get our livelihood by working for others, while others get their livelihood in return by working for us.
- As children we need our parents to be our comforters, and to take care of others: we cannot exist a day without our fellowmen; we require teachers to educate us: books and masters to teach our trade; and when we have learned it and settled ourselves in life, we require laws made by other men who died hundreds of years before we were born, to secure to us our rights and properties, to secure to our comforts in our station; and we need friends to comfort us in sorrow and to share our joy.
- Que.5(A) Translate the following passage into Gujarati. (07)
- Human activities cause most of the pollution. It is because of the commercialization of natural things. Humans turn many natural things into human-made things to satisfy their needs. We use more than our needs, which adversely affects nature. The gases from vehicles and factories pollute the air. The land and water are polluted by solid garbage from factories, households, and so on. In rural areas, agricultural wastes, pesticides cause pollution. The noise pollution is caused by the massive sound of music, vehicles, and machinery. The pollution also leads to global warming.
- Que.5(B) Translate the following passage into English. (07)
- પૈસા કરતાં સમય બહુ કીમતી છે. પૈસા એકવાર ખોવાઈ જાય તો પાછા મેળવી શકાય છે પણ એકવાર ખોવાઈ ગયેલો સમય કાયમ માટે ખોવાઈ જાય છે. સમય અને ભરતી કોઈની રાહ જોતા નથી. ખોવાયેલી તકો કોઈનું જીવન બગાડી શકે છે. જેઓ સમયસર કાર્ય ન કરે તેને પાછળથી પસ્તાવો કરવો પડે છે. એક બુદ્ધિશાળી વિદ્યાર્થી તેના પાઠ અગાઉથી તૈયાર કરે છે. આથી જીવનમાં સમયનો યોગ્ય ઉપયોગ જરૂરી છે.
